

PL PROJECTS

APM PROJECT RISK
MANAGEMENT SINGLE SUBJECT
CERTIFICATE LEVEL 1 AND 2

HOW IS IT STRUCTURED?

WHAT IS IT?

The Association for Project Management (APM) Project Risk Management Single Subject Certification Level 1 and 2 course equips you with the theoretical knowledge that underpins the practice of risk management on projects, programmes and portfolios.

This course is completed part-time, three hours weekly, every Wednesday, over 14 weeks. Level 1 will be taught over 8 weeks, with an hour multi-choice examination completed in the last session. Followed by 6 weeks of Level 2, with a 3-hour written examination upon completion.

WHO IS IT FOR?

The APM Project Risk Management SSC Level 1 and 2 are suitable for professionals wishing to learn more about risk management and take the next step in their career.

Designed to build on the knowledge gained in the APM Project Management Qualification (PMQ) or similar project management qualifications.

The online course is presented in a classroom-style delivery via a live video-conferencing platform. Our experienced tutors will take you through the course materials in an engaging way, leaving plenty of time to clarify any points.

Notes will be provided in advance and official APM sample questions and mock tests are included in the course to assist your preparation for the exam. In addition, both the APM's PRAM Guide and exam are included.

WHAT DOES IT COVER?

The APM Project Risk Management SSC Level 1 and 2 training course provides in-depth coverage of:

- Benefits of project risk management
- Phases of the PRAM Process
- The risk management plan
- Risk attitude
- Application of risk
- Risk identification
- Qualitative risk assessment
- Quantitative risk assessment
- Risk response

WHAT DO OUR CANDIDATES THINK?

“

I would highly recommend this course to anyone wishing to advance their career in risk management, project management or PMO, or for those just looking for some extra intellectual stimulation!”

- Project Consultant
