PROJECT  
MANAGEMENT  
QUALIFICATION (PMQ)

## WHO IS IT FOR?

## HOW IS IT STRUCTURED?

### WHAT IS IT?

The Association for Project Management (APM) PMQ course provides an in-depth treatment of the topics covered in the APM's 'Body of Knowledge'. This includes a broad range of project management (PM) concepts and terminology and a working understanding of how these can be implemented to deliver successful projects.

This course is completed part time, two hours weekly over 16 weeks (11 weeks of teaching and 4 weeks of revision), with a 3-hour written examination upon completion.

The PMQ is designed for professionals wishing to take the next step in their project careers.

Applicants typically have some pre-existing PM knowledge or experience, and it is the ideal next step for anyone holding the APM PFOQ or for those on any PM related apprenticeship.

The course is presented in a classroom-style delivery via a live video conferencing platform. Our experienced tutors will take you through the course materials online where you will be able to clarify any points as they might occur. Official APM sample questions and mock tests will be included to assist with preparation for the exam.

Throughout the delivery there will be an expectation to do 'homework' and partake in exercises as this is an extensive course aimed at those who wish to immerse themselves in the subject matter.

## WHAT DOES IT COVER?

- Project reviews

## WHAT DO OUR CANDIDATES THINK?

“

*Thank you very much for your support, guidance and encouragement on the PMQ. I really enjoyed the course and your company. The delivery was brilliant and I just wish that all courses and training opportunities could be more like this! It has really inspired me to take the next move in my career.*

- Katie, Programme Planner
